## GREENEVILLE

Death of Robert Stevens—G. A. C. Has a Great Record—Personals.

The death of Robert Stevens occurred Thursday morning at 556 North Main street. He was 76 years of age. The R. A. C., through some misunderstanding, had been told that they would not play the Jewett City football team that answered their challenge as they meant to challenge the younger Jewett City team of boys under 15 years of age.

G. A. C. Settling Record.

The local football team, the G. A. C., have set this season a record by local teams in having no opponents cross their goal line yet and also they remain undefeated, and it looks as if they will retain this record throughout the remainder of the season.

Notes.  
B. Lazeroff of North Thames street has changed his residence and is now living on Central avenue.

George Benjamin of Springfield is visiting here for a few days with his mother, Mrs. Emma Benjamin, of Central avenue.

George Upton and his son Turner have been on a hunting trip in the vicinity of Foxcroft and returned home with a good bag of game.

## CIVIL SERVICE BLOCKS

TUBERCULOSIS COMMISSION.

They Cannot Transfer Office-Boy from Norwich to Hartford-Sanatorium.

The tuberculosis commission is in need of the services of an office boy at the Hartford sanatorium, but owing to the conditions of appointment required by the civil service commission is unable to fill the position.

The commission had an office boy at the institution in Norwich who was an arrested case and therefore was considered practically immune. The secretary sent a letter to the civil service commission stating the circumstances and suggesting that the approval of the latter be given to the transfer from Norwich to Hartford.

The civil service commission, on the ground that it had a list of young men who had passed the examinations for the position of office boy and the appointment of the Hartford institution should be from that list.

The tuberculosis commission reminded the civil service commission that there would be danger in appointing a person to the position who had not suffered from tubercular troubles. It was pointed out in the letter of the secretary of the tuberculosis commission that the boy at the Hartford institution would be required to sleep in the same room with the patients and that a person who was an arrested case did not run the same risk as one who was a perfectly healthy person. The letter further stated to the civil service commission that the danger of contracting the disease of tuberculosis the tuberculosis commission would not make an appointment at all.

The young man in question, who is employed at the Norwich institution, will be very much disappointed when he learns of the decision not to transfer him to Hartford. His home is in that city. His salary of the position is \$20 and board.

# \$1,500 SUIT AGAINST WATER BOARD

Sunnyside Water Main Association Demands Compensation

Their Water Pipes at Sunnyside Have Been Taken by City Since This Section Was Annexed.

The Sunnyside Water Main association, a voluntary association, located in Norwich, and composed of residents of the Sunnyside section of Laurel Hill, has brought suit against the board of water commissioners of the city of Norwich on a writ returnable to the superior court for New London county on the first Tuesday of December, 1914, claiming \$1,500 damages.

The plaintiff sets forth that some time in November, 1893, the water board was maintaining one of its water mains through Laurel Hill avenue, almost to the city line at Sunnyside, and that in the district known as Sunnyside there were a number of people who desired to have their houses supplied with city water. In order to furnish this service and to obtain the increased revenue incident thereto, the defendant entered into an agreement with E. Walter Phillips, one of the Sunnyside residents, providing for the construction and maintenance of certain mains and pipes in the Sunnyside district.

A copy of the agreement which is made part of the complaint provides that the plaintiff, Phillips, was to bear all the expense of laying and maintaining the pipes, that the rates to be charged for water to be the same as those to be charged for water within the city limits, that the water department reserves the right, in case of short supply of water, to discontinue the furnishing of water to the Sunnyside residents beyond the city line, and that in case the Sunnyside district is ever taken into the city, the plaintiff shall be reimbursed for the cost of the mains.

The agreement, which was signed by H. A. Briggs, Sidney L. Geer, R. A. France, George H. Pratt and Timothy Kelly, the first three being commissioners of the city of Norwich, the complaint further alleges that in pursuance of this agreement, and relying upon it, Mr. Phillips proceeded to expend \$600 for labor, pipe and other material for the construction of the water mains through Laurel Hill avenue, thence through Sunnyside avenue to the city line, through Clay avenue, and from Sunnyside avenue, through Wildcat avenue, and also through Laurel Hill avenue westerly to the house of one Corcoran, making a total of several hundred feet of piping which he installed. And thereupon in pursuance of the agreement, the water board extended the Laurel Hill main and connected it with the mains laid by Mr. Phillips, and by means thereof proceeded to furnish water to the Sunnyside district, and ever since has been so collecting and realizing a regular and constant revenue and income therefrom, amounting in the aggregate to many thousands of dollars.

On November 10, 1893, Mr. Phillips assigned his interest in the agreement to the plaintiff and thereafter the plaintiff has always performed his part of the agreement, so far as the laying and maintaining of the mains and pipes in the Sunnyside district, and in 1902 the defendant took full and exclusive control of the mains and pipes.

The eighth paragraph of the complaint alleges that the legislature of the state of Connecticut, by a special act approved June 25th, 1893, provided that said Sunnyside district should be taken into the city of Norwich on January 1, 1914, and that thereby the district where the pipes in question were laid became a part of the city, and that although the plaintiff since January 1, 1914, has demanded reimbursement under the agreement, the defendant has refused to make any payment.

The writ and complaint are signed by Allyn L. Brown of the firm of Brown & Perkins, as a commissioner of the superior court for New London county.

## ARE STATE POLICE UNDER CIVIL SERVICE?

Question is Submitted to Attorney General for a Decision.

The question whether the appointment of state policemen comes within the scope of the state civil service law has been raised.

The state police commission, of which Senator John H. Berry of Schuylkill is the president, submitted to the attorney general a formal question whether or not appointments to the state police force must be made in accordance with the civil service law. The attorney general has the matter under consideration.

There is an impression that it is impracticable to force the state police department within the scope of the civil service law. It will be remembered that some time ago a similar question was raised in regard to the appointment of teachers in state institutions, the question having been presented to the attorney general by the state board of education. The attorney general gave an opinion that the teachers were exempt from the operation of the civil service law, on some respects the case of the state policemen is analogous to that of the teachers.
